The Backdrop to your
Dream Wedding

Where Dreams Meet Reality

If your dream wedding is something completely bespoke and not your typical 'Hotel Chain Wedding' then you've come to the right place. Why not take a look at our beautiful converted rustic barn with original pitched roofs, distinctive spoked beams, bare brick walls and traditional stable doors.

With acres of beautiful rolling fields, Deighton Lodge is simply stunning in its rural farm setting. This vastly spacious newly renovated barn is a one of a kind and accommodates up to 200 guests. Quirky re-fashioned fittings and cosy snugs could be the backdrop to a truly rustic, personalised dream Wedding set against the stunning Yorkshire countryside.

It's Your Day

Rustic minimalism meets Boho glam with this innovative and complimentary design spectacular. This slice of agricultural ingenuity delivers a thoroughly highly sort after setting where wedding dreams can be displayed.

With many of its original features restored and lots of unique additions, you can be sure Deighton Lodge will be the platform that compliments your style.

The Barn

Almost 400sqm of blank canvas awaits you and your imagination – get your creative juices flowing because this is a Wedding Venue like no other. With no limitations in creating your vision, the backdrop to your dream wedding is waiting for you.

Freedom to select your own caterers, your own chairs, tables, bar, decorations is exactly what we mean when we say you can create your own dream wedding. With an extensive suppliers list that you can choose from, but by no means have to use, we can assist you as much or as little as you require. Literally transform your imagination into reality with as much independence as you like.

With just 15 weddings per year, at Deighton Lodge you are guaranteed an exclusive event, eliminating that production line feeling. We assure you a completely tailored made and unique experience true to you and your fiancé. The barn gives you the setting, the rest is up to you!

Cosy Up In One Of Our Snugs

With the choice of two beautifully themed rooms, your guests can retire to one of our two cosy snugs to rest their tired feet after dancing the night away.

The first snug, beautifully themed with a Shabby Chic elegance has wicker hearts displayed around the room and candles covering a stack of Apple Crates. Lighting complements the main Barn with antique bulbs displayed on old pipe work, further enhancing the experience. An original spoked beam sunk into the Apex of the room is the cherry on the cake with this spectacular.

The second snug, with accents of a South American style showcases Roebuck Deer skulls on the bare brick walls, a giant cowhide rug imported from the U.S. and original scythes displayed creating a completely contrasting but equally enthralling experience.

Rustic &

Rural

With many of the original features restored, we have managed to maintain some of the fabulously rustic & attractive attributes that assist in making Deighton Lodge what it is today.

With the addition of some very quirky and original touches, the venue boasts some truly thought provoking material. Elements such as Milk Churn Urinals and traditional Feeding Troughs converted into sinks ensure your guests are in for a truly magical time.

The main attraction, however, does appear to be our completely bespoke and state-of-the-art Chandeliers that run down the centre of the barn creating the most desirable focal point to every Wedding.

With 4 sets of Chandeliers, each with 15 antique bulbs hanging from vintage cartwheels, the room will be lit with an ambience that exudes elegance. As the night time draws in, the lighting only complements the event further with the roof lights darkening and the warm radiance of the antique bulbs accentuating the ambience.

Our wet weather option for the civil ceremony is to hold your service inside the barn. These exuberant lights running down the aisle create an absolutely incredible event space and a very special touch to your very special day.

The Farm House

Recently refurbished, the house provides a modern country Farmhouse appearance with beautiful panoramic views of rolling fields and farmland. It is simply stunning! With 8 bedrooms on site, all except one en-suite, we can accommodate up to 19 people comfortably.

The bathrooms are lavish with heated floors with two of the rooms boasting vintage roll top baths.

All communal areas are for the use of your guests including a large living room, dining room, domestic kitchen, snooker room and memorabilia gallery.

The Bridal Parlour

Our Bridal Parlour is the latest addition to the venue and in complete contrast to the rest of the rustic and rural setting, is a luxurious treat for the Bride to pamper herself with her bridesmaids on the day of the Wedding.

Both lavish and exquisite in its make up with some really fabulous touches, this room is the epitome of complete indulgence, just what the Bride deserves on her big day.
